OTHER USES FOR POLYURETHANE;

Polyurethane can be applied onto almost any surface:

- Wood
- Steel
- Glass
- Chipboard
- Concrete
- Fibreglass
- Galvanised Iron
- Polystyrene

Polyurethane:

- Protects buildings against water damage
- Protects steel against corrosion
- Protects load bins of vehicles against rust

TUFF GUARD IS RENOWNED FOR LOAD BIN LININGS!!!

But with a bit of imagination you will find numerous other uses...
